Re : SHANGHAI MIGRATION FILES

Enclosed you will find a listing of all migration files whose shipment has been approved by the authorities, which have been passed through customs and are now awaiting the first vessel out of Shanghai. These lists are arranged according to countries of end-destination, so far as we have been able to determine from the migrants plans at this end.

The only files not sent you are those of the remaining population and those of the ANNA SALEN passengers. The latter we thought advisable to keep here for a short time in case any queries might arise while the clients are in transit. Were we to ship them now it would take five to seven weeks before they would reach New York.

As soon as the bills of lading are prepared and we know the boat on which the files are to be transported we will cable you the essential details.
